The Eco Chakra

Company Overview

Started in 2020, **Eco Enviro Circular Solutions**, headquartered in Ranchi and operating under the brand **The Ecochakra**, builds and manages circular resource recovery systems for plastic, paper, e-waste, ferrous and non-ferrous scrap, and other recyclable and low-value waste streams. We focus on maximum value recovery, strict environmental and social compliance, and verified responsible end-use—converting waste into resources and driving a practical, measurable circular economy.

Learn More

Company Overview

The Ecochakra delivers end-to-end circular waste management and Alternative Fuel Resource (AFR) solutions for WMA, industries and manufacturers.

We supply compliant AFR streams, including industrial waste, agricultural residue, and RDF, supporting biomining of legacy dumpsites, executing EPR programs, and managing factory waste and scrap with full traceability.

Our integrated model helps you:

- Cut landfill dependency
- Reduce fossil fuel consumption
- Lower carbon emissions
- Achieve regulatory compliance
- Recover value from every waste stream

ENVIRONMENT

The Eco Chakra

Vision Statement

To build a **zero-waste future** where every discarded material returns to the economy as a resource, enabling clean cities, compliant industries, and a circular system that protects people, communities, and the planet.

The Eco Chakra

Mission Statement

Support India's circular economy goals and policies.

Enable responsible disposal

Recover maximum value from waste

Core Values

Integrity & Compliance

Follow environmental laws, EPR norms, and safety standards. Maintain full traceability and ethical conduct with zero shortcuts.

Sustainability First

Design every process to reduce landfill, conserve resources, and cut emissions. Measure impact in tonnes recovered, not tonnes dumped.

Circular Thinking

Treat waste as raw material. Build systems for reuse, recycling, and value recovery across every stream.

Partnership Mindset

Work closely with brand owners, producers, municipalities, recyclers, and vendors. Solve problems together, not in silos.

- ✓ West Bengal
- ✓ Maharashtra

The Eco Chakra

Our Services

We deliver end-to-end waste and resource management solutions for corporates, factories, and institutions. **One partner. Complete compliance. Maximum recovery. Zero landfill focus.**

Low-Value Plastic & RDF Disposal

EPR Services

Reverse Logistics and Resource Recovery

Scrap -Ferrous/Non Ferrous

Factory Waste/Disposal Management

The Eco Chakra

Our Products

We extract value from discarded waste, supply quality-assured scrap materials to recyclers and processors, and ensure traceable, compliant end-use—reducing landfill burden, conserving raw resources, and closing the loop in the circular economy.

Plastic Scrap-PET,LDPE,HDPE etc

Metal Scrap-MS, Aluminum etc

RDF and SCF

Used Corrugated Cartons

The Eco Chakra

Our Impact

In the last six years, we have diverted **100,000+ MT** of waste, largely plastic-rich, from landfills and sent it to authorized cement plants for compliant co-processing.

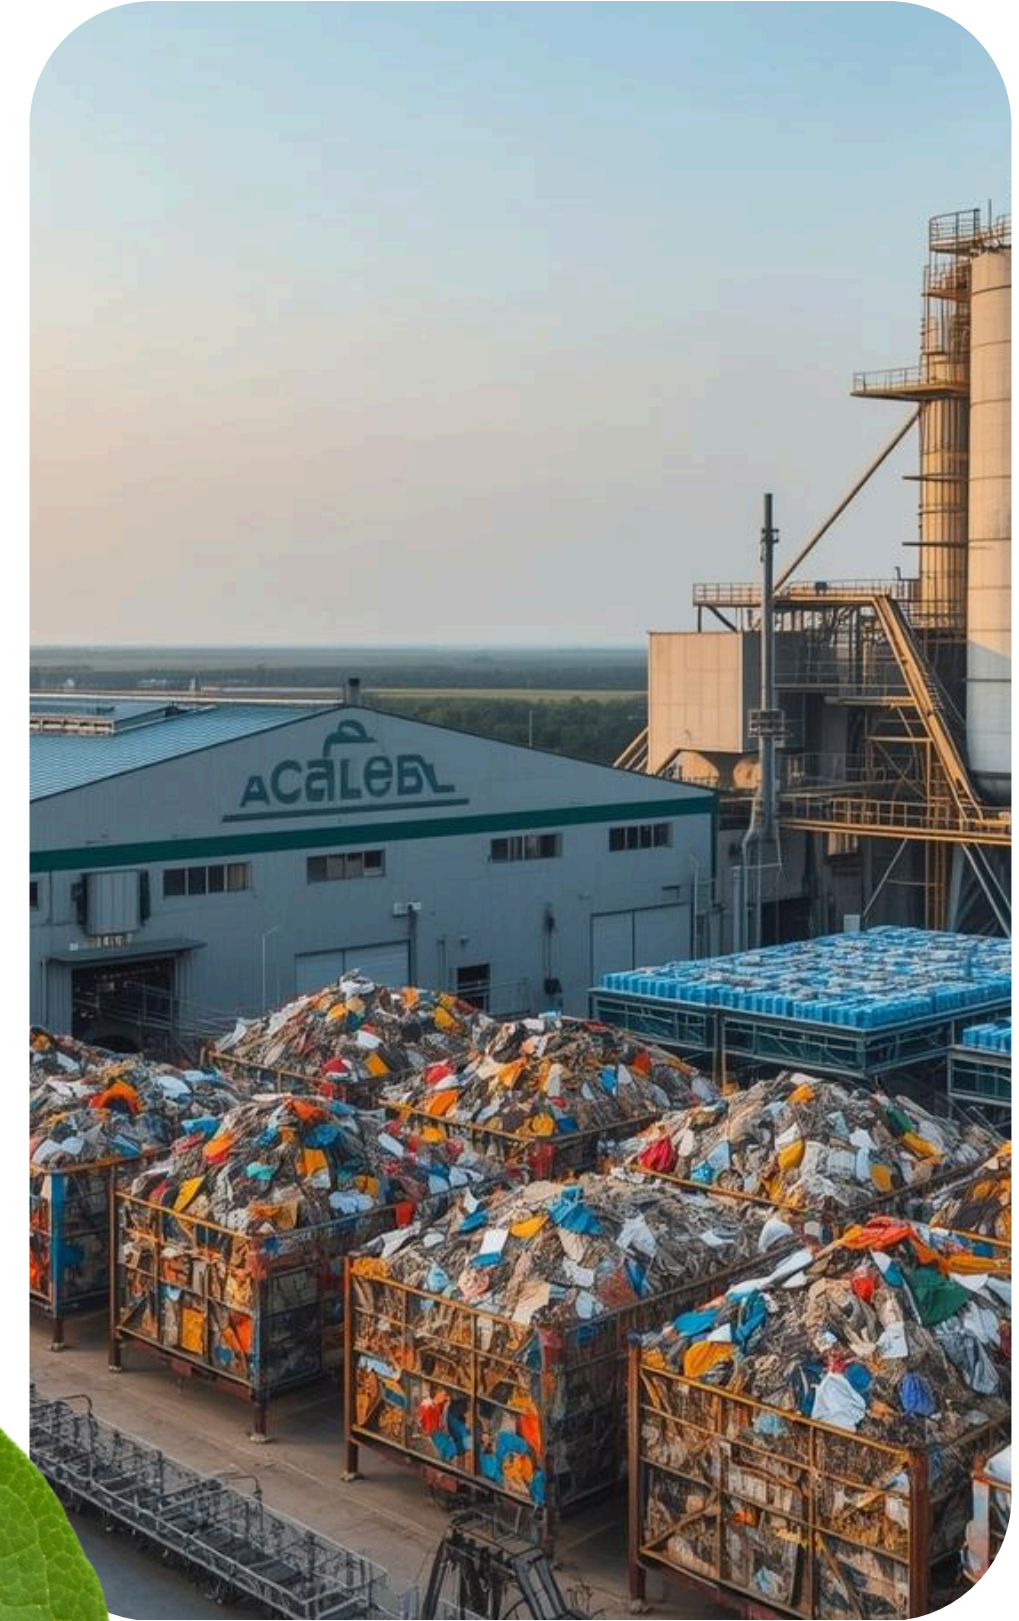

100,000 MT Waste Diverted

~200,000–300,000 tCO₂e emissions avoided (plastic replacing coal and preventing landfill methane)

Lower fossil fuel use in cement kilns

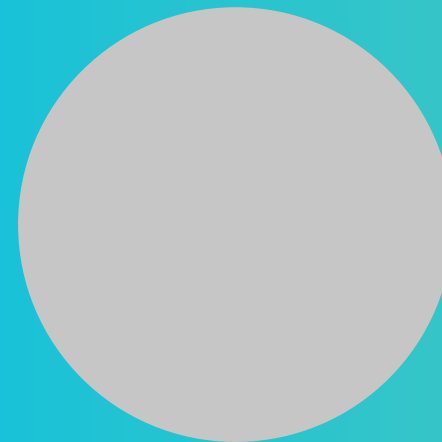

Our Team

Kunal Singh Chauhan
Founder and CEO

MBA,BCom. Having 16+ Years of Experience in Corporate Finance and Operations.

Shanti Vengra
Managing Partner

Gaurav Paul
Chief Business Officer

MBA,BSc and PG-Environmental Law from NLU. Having 17+ Years of Experience in Waste Management

Gunjan Dutta
Management Head

Btech.Having 6+ Years of Experience in Management,Administration Operations.

Shekhar Sikriwal
CRM and Compliance

Rishav Raj
EPR AFR Coordinator

Anand
MRF Coordinator
